

WASTE SKIP BIN

Skip Bins are commonly used to loads of wastes such as General Waste, Green Waste & Lumper, Industrial Waste, Household Waste, and Scrap Metal.

This waste can be displaced from one point to another in Skip Bins that is later used to remove waste and clean-out jobs.

Our featured Skip Bins types to consider for your need:

- **Marrel Skip Bins**
- **Hook Lift Skip Bins**
- **Mobile Skip Bins**

Skip Bins offered by HectoAmp is manufactured in China by our partnering company. Our Engineering Designs are based on Australian Standard as follow:

- AS1170 Structural Design Action
- AS4100 Steel Structure Design
- AS3990 Mechanical Equipment Steelwork

MARREL SKIP BIN

Marrel Skip Bin is the most widely used bin, both for domestic and industrial waste, with bins sizes starting from 2m³ through to 8m³.

We offers Wheel Barrow Access Door as an optional features on request. Our Marrel Skip Bin generally have higher sides and are shorter in length than a Hooklift Skip, so it's an ideal option for small spaces storage.

Other technical details as follow:

- *235MPa Yield Strength*
- *375-500MPa Tensile Strength*
- *Fully Seam Welded (Inside & Outside)*
- *1 Layer of Anti-Rust, 1 Layer of Epoxy Under Coat & 2 Layers of Top Coat Finishing*

MOBILE SKIP BIN

Mobile Skip Bins are perfect solution for those hard to place locations. Our Mobile Bins comes with Lockable Lids.

HectoAmp offers 4m³ size bin with 2 variant:

- *Mobile Trailer Skip Bin*
- *Tipper Trailer Skip Bin*

Some of the features as follow:

- 185/80R14 Wheel
- Mechanical & Electrical Brake System
- 2T Heavy Duty Coupler & Jockey Wheel
- 2 Separate Removable Steel Lid with Heavy Ratchets and Lock
- Top Lift Access Door & Barn Door with Safety Ratchet

Realizing Dreams

HOOK LIFT SKIP BIN

Hook Lifts are predominately hired for Commercial and Industrial waste disposal where there tends to be quite large amounts of waste that is needed to be removed.

The Hook Lift are rectangular in shape and have larger rear opening doors for those jobs that require the use of a bobcat to drive into the bin.

Our Hook Lift Bins ranges in size from 6m³ up to 30m³. Internal dimension details as follow:

- L3600MM x W2010MM x H840MM
- L4500MM x W2010MM x H885MM
- L5100MM x W2010MM x H990MM
- L5400MM x W2010MM x H1125MM
- L5400MM x W2010MM x H1400MM
- L5600MM x W2010MM x H1800MM
- L5600MM x W2010MM x H2225MM
- L6600MM x W2010MM x H2225MM
